Fabio Carucci

Junior Web Developer

Passionate full stack web developer with a strong focus on React for frontend development and solid experience in using Node.js and MongoDB for the backend. Now working as a freelancer with a VAT registration, I collaborate with various clients to develop dynamic and innovative solutions.

Driven by the determination and resilience I've gained from surfing, I approach every project with enthusiasm and professionalism..

Work Experience

Full Stack Web Developer

Freelance

2024

- Management and development of web applications for clients, using React for the frontend and Node.js and MongoDB for the backend.
- Optimization of user experience through responsive and interactive interfaces, with a strong focus on UX/UI.
- Integration of third-party services such as Mapbox and GoHighLevel CRM to implement advanced features in web projects.
- Ongoing support and assistance to clients for improvements and post-development maintenance.
- Design and customization of websites with WordPress and Shopify, including the integration of custom themes, plugins, and SEO-friendly solutions to enhance clients' online presence.
